

**FACT SHEET**  
**PERILS FACED BY YOUNGER GENERATIONS**

Community Flicks is a nonprofit initiative launched by Art for Growth. It seeks to present visual stories about reality according to the founder of life, GOD ALMIGHTY; the true way to one's authentic self. It is not our wish to pass judgment, but we stand with Christ in all things. As a youth ministry, we seek to serve the spiritual needs of young, vulnerable souls as we've done for over twenty years, i.e., through the performing arts.

**Psychology Today** published an article stating that objections to the practice of LGBT-themed stories read by drag queens to preschoolers "is unfounded and based largely on hatred of nonconformity (and perhaps unacknowledged fears about their own sexuality)."

The article goes on to say that "exposing children to the reality of diverse sexualities and gender identities" such as the stories read by drag queens, provide children with "templates as they begin to sort out their feelings about who they authentically are." <https://bit.ly/3N83IEE>

In his blog, **Jonathon Van Marengo** shares facts with readers, proving that the sexualization of children is not a conspiracy theory. He writes, "The Washington Post published a column **advocating** that children be exposed to "kink" at "pride" parades. Two abortion activists published a book **promoting** abortion to children. Nickelodeon released a video **promoting** "pride" month (and transgenderism) to kids. LGBT groups are **demanding** that the "pride" flag be hoisted over Christian schools. *Blue's Clues* **aired** an LGBT-themed music video for children. PBS **promoted** drag queens to pre-kindergarten children. Kellogg's **released** a "pride" cereal box telling kids how to choose their preferred pronouns. Pixar has also **ramped up** its promotion of LGBT "representation. That is just the tip of **an iceberg of LGBT content** aimed at children this year alone."

<https://bit.ly/3D3lt23>

"**The Gay Men's Chorus**" put together a music video featuring a very telling message. Though one group performed the song, it represents how the LGBT movement has evolved, popular thoughts many have regarding Christians, and confirms the need for concern by followers of Christ and families striving to raise their children in Christ. The opening lyrics were as follows:

"We will convert your children,  
it happens little by little,  
quietly and subtly, and you will hardly notice,  
you can keep them away from disco, warn them about San Francisco,  
make them wear pleated pants,  
we don't care...we will convert your children."

<https://youtu.be/ArQQF4kadHA>

Community Flicks believes that the adage "fight fire with fire" applies to this issue. Therefore, using the same approach revealed in the song's lyrics, the initiative will be as wise as serpents yet gentle as doves. "Little by little, quietly and subtly," we will share insights, wisdom, and light through original, visual stories designed to help thwart the opposer's plan for our children.

In the **Medical Life Sciences News** a writer reports, "The number of young people seeking gender transition is at the highest it has ever been, but little is reported about how many of them regret the decision later, finding they are unhappy with their new gender." **"They tend to be around their mid-20s."** The article also stated that a twenty-one-year-old felt shunned by the LGBT community for being a traitor when she decided to detransition. It reported that many seek help finding support over their decision to detransition. A subtitle in the article reads, **"There is a lack of information about how many people regret transitioning."**

Community Flicks has a formula (straight from the teachings of Christ) that allows its content to not only scatter seed successfully but give it room to grow in the minds and hearts of those whom GOD can give the increase. For those whose hearts are not reached, the content might enhance their lives in other ways. At the very least, it will present edifying entertainment.

Before COVID, the **Jason Foundation** released statistics revealing the following:

"14% of Teens 13-18 usually take their own lives.

Suicide is the **SECOND** leading cause of death for ages 10-24.

More young people, teenagers, and young adults die from suicide than from cancer, heart disease, AIDS, birth defects, stroke, pneumonia, influenza, and lung disease, **COMBINED."**

<https://bit.ly/36z3kOA>

A study by **Pediatrics Child Health** stated:

"Teens rank the media as the leading source of information about sex, second only to school sex education programs. Numerous studies document adolescents' susceptibility to the media's influence on their sexual attitudes, values, and beliefs."

The opposer is sifting younger generations like wheat, and the world doesn't notice. Community Flicks gives those who see what's happening a viable way to intervene without exposing themselves to ridicule and criticism from opposition. Shaking our heads won't accomplish anything. Even young people from good homes are not immune. Look at the following statistics.

In his book, *You Lost Me*, **David Kinnaman** revealed the following:

"Of young people raised in Christian homes, 57% become less active in the church."

"59% of other young people raised in Christian homes have already dropped out of the church."

That was in 2011.

If your children and grandchildren are strong enough to withstand the attacks, Community Flicks can provide them with ammunition they can use to share with their peers. Media is powerful. Community Flicks is committed to a production formula that addresses the fears, problems, and challenges young people face today, without offending GOD and without disrespecting the human race HIS Son died for. Our goal is not to attack but to reach. But, we can't succeed at our mission without support from those who care. Please, donate annually to Community Flicks. Submit your contribution at [www.communityflicks.org](http://www.communityflicks.org) or mail it to **Community Flicks, 5627 Allentown Road, Suite 205, Camp Springs, MD, 20735**. Whatever you're led to contribute will be appreciated. **SUPPORT COMMUNITY FLICKS** <https://bit.ly/3iEhFMF>
